THURSDAY, NOVEMBER 29

The Weiland Saloon.

W. Whitney has assumed control of the Weiland saloon, which he proposes to run strictly up to the times. He will dispense the best liquors and cigars and fine old Government whiskey, which slides down your throat like oil, tickling your palate meanwhile. Call and see "Handsome Whit." f11

Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy for rheumatism, is the king of the world. Aches knocked out in short order. No horseman should be without a bottle. Benton's Liniment for sale at all drug stores.

Notice.

I take pleasure in stating to the public that I have opened the Silver State Restaurant and will run the business under my sole supervision. Not having a partner and being untrammelled in the management of the business, I shall endeavor to merit a full share of public patronage.

IDA WINTERS.

The people of Carson and vicinity that want furniture repaired should try Mr. Meyers a first class upholsterer who will make your mattresses and lounges over as good as new. This mechanic will stop in Carson if the people will only give him a chance to prove himself worthy. Geo. W. Kitzmeyer has tendered him his workshop who will guarantee that his work will be good and charges satisfactory. Persons who have tried the so called upholsterers who are not responsible for their work, will find a big difference in their favor if they trust their upholstering to this man. Call at the store of Geo. W. Kitzmeyer. 1w

Philip Krall, teacher of piano, is ready to receive pupils. For information apply to F. J. Steinmetz or Mrs. McQuarters.

Once in a while we encounter some
queer headlines in the newspapers,
but this alliterative one from a
Bakerfield paper "takes the cake."
"Preacher Perkins' Process of Pre-
serving Perishables."

Nearly all the Putes who live in
this section have returned from their
annual placenting expedition. Squaws
are at a premium during the present

flourish.

Editor Krauth of the Alameda
Encinal says a man is only old when
he feels that way. Years count for
nothing. Krauth has snowy locks,
but he is regarded as about the young-
est man in California today and good
for many more years of usefulness.

The Silver State says S. M. Tim-
mons made an unsuccessful attempt
to kill himself in his saloon at Win-
nemucca. He shot himself in the
head but the ball glanced and in-
flicted only a scalp wound. He said
he was tired of living.

The Ophir Strike.

THE ARGUS CLAIMS THAT IT IS
NOT IN OPHIR GROUND.

The last number of the Argus has
the following:
"The last weekly report of the
Ophir Mining Company was an addi-
tion to the mining literature of the
Comstock of marked value.

According to this report quite a
discovery of rich ore has been made.
It is stated that "sixty tons of ore,
assaying \$90 per ton, have been ex-
tracted." This is from the central
tunnel workings and is comparatively
new country. In order to reach this
country the central tunnel is passed
through 1,050 feet, and a connection
made with the old Mexican shaft.
From this shaft a west drift has been
run 250 feet and a winze sunk in that
drift. From the bottom of the winze
a drift has been run 200 feet south
and then turned to the southeast,
where it cut the ledge. The face of
this southeast drift was reported to
be in ore averaging \$75 per ton, the
last twenty feet being in ore of this
grade. In order to reach this coun-
try the Ophir Company has gone out-
side the ground owned by them, and it
may be properly asked, what right
have they there, and whose ore are
they appropriating?

No one will believe for one instant
that the Superintendent of the Ophir
mine would permit the men in the
employ of that company to take ore
belonging to anybody else, and when
his attention is called to the fact
that he is entirely out of his lines,
and in the ground belonging to
other people, he will quit his mon-
keying.

The laws in the State of Nevada
are particularly severe upon those
who appropriate ore from ground not
belonging to them, and such appro-
priators are under the law required
to pay double value of the ore ap-
propriated.

Of course everyone knows that in
the past it has been quite fashion-
able on the Comstock to loot adjoin-
ing mines, but the practice is out of
date a trifle, and careful miners aban-
doned it some time ago. If the
new line reported by the Ophir be-
longed to the company, then one
would be led to believe that they
have a patent-adjustable-elastic-title,
warranted to fit all ore bodies be-
tween the easterly line of Nevada
and the Golden Gate, and ready to
shift when required.

Familiarity with the situation en-
ables the writer to deny the existence
of any such blanket claim and to say
that the ore reported by the Ophir is
not in their ground and does not be-
long to them.

More Silver Light.

The Salt Lake Tribune has the fol-
lowing:

"Light on the silver question is
constantly appearing in the East
these days. Among the rays is one
that shone upon Mr. G. S. Holmes
of this city yesterday, in the shape
of a letter from a bright attorney in
Ohio, and a Democrat. Portions of
which are as follows:

"Mr. G. S. Holmes.—Received
your two very courteous letters, also
newspapers. Now that Utah is Re-
publican (although I am not of that
political faith), I believe it betokens
a new era of prosperity; provided al-
ways the Republicans have the en-
gacity to take a Western man for
President and come out honestly and
squarely for coinage of silver on the
same terms as gold. Each should be
on equal footing. If one is coined
free the other should be. The Dem-
ocratic party lost its hold on the
masses by playing into the hands of
New York, and the Republicans
must avoid the same trap. A man
like Senator Teller of Colorado, who
is a statesman, would be elected. I
have no tears to shed over the de-
feat of Mr. Cleveland.

"The Democrats have had their
dose; now see that your party don't
repeat our mistakes and tie yourself
to the "goldbugs" of the East."

Truly your friend

C. H. COLLINS.

Candidates Expenses.

The Wadsworth Dispatch calls for
the enactment of the law compelling
successful candidates to file a bill of
the election expenses. The law is so
easily evaded that it practically be-
comes a dead letter. We need no
such law in this State.

No Paper Tomorrow.

Today being Thanksgiving there
will be no paper issued from this
office tomorrow.

The San Francisco Horse show
opened yesterday.

NO HIGHBINDER WAR.

BOTH SIDES CLAIM TO BE AT
PEACE WITH EARTH.

Yesterday an APPEAL reporter had
a talk with See Wah, who is charged
with importing highbinders to Carson
to make way with Albert. He de-
nied all allegations made by the rival
company.

"I am a business man and attend
to my business, and I have nothing to
do with highbinders. I will let the
law settle the trouble, and I told the
District Attorney that. A few days
ago eight men came in here from the
soda and borax marshes near Keeler
and this caused the talk about high-
binders. I am willing to be good
friends with Albert, but he won't
have it that way. He has always
had highbinders around him, and has
some in town now."

The Chinamen on the other side
of the street hold that they are peace-
ful law abiding Celestials, and are
endeavoring to maintain a strict neu-
trality under trying circumstances.
They insist that the other side have
employed hatchet welders, body
backers and cutlans men to massacre
their enemies. Meanwhile the man
who was so badly beaten a few days
ago is expected to die, and his friends
say they will avenge his death. At
the present time the atmosphere of
Chinatown seems peaceful, but the
local dealers say that the Chinese are
purchasing revolvers and cartridges in
large numbers.

Wiggins' Turkey Shoot.

Everybody with a gun will be
down to Empire today punching lead
at turkeys. Wiggins has about 250
turkeys and as many chickens to be
slaughtered at the "big shoot" today.
He will give the shooters extra
chances, and at the end there will be
a "Consolation Shoot" at short range
for the miserable puddings who can't
hit a barn at 50 yards, or are too
drunk to see the birds. His idea is
to move the birds up close to the
stand so that you can't miss 'em
under any circumstances. The peo-
ple of Empire are moving their cows
and horses to the mountains in order
that they may be out of danger.
